

**Software  
that helps  
you get on  
with the job.**

## What Is Rapid Induct?

What if you could get your employees and contractors trained, compliant, inducted and on the job faster? You can with Rapid Induct from Rapid Global.

Rapid Induct is an award winning online learning management system for the creation and delivery of online induction and training courses for employees and contractors. The customisable system is fully hosted and accessible from any internet enabled device or computer twenty four hours a day, seven days a week.

Rapid Induct is ideal for businesses of all sizes in all industries with employees and contractor training and induction management needs. Businesses with multiple sites especially benefit from the system's ability to remotely induct and train a workforce. Rapid Induct is the software solution to help you meet your legal requirements for compliance.

Some of the world's largest companies and institutions like Ford, Kraft Foods and Boeing Aerostructures Australia already rely on Rapid Induct to induct and train their employees or contractors. From mining and property management to health care and education, Rapid Induct is fully customisable for any business category or industry.

Best of all, Rapid Induct puts you firmly in control of your content. Edit your courses, add modules, create questionnaires, checklists or surveys and change images using the easy to use editing controls.

Rapid Induct is simply the most reliable and efficient way of getting the right people on the right job at the right time.

## Rapid Global Products Integration

Integration with your existing systems or third party software is available. Rapid Induct can also be combined with other Rapid Global software solutions to create greater efficiencies and perform related tasks:

**Rapid Contractor Management** software is a gatekeeper system that stops non-compliant contractors from completing inductions in Rapid Induct. Manage your contractor workforce efficiently.

**Rapid Access** software combines identification cards and site access systems such as kiosks or turnstiles to enable secure site entry. All workers are to swipe in to provide proof of induction.

Personalised safety induction courses.

Branded login screen designed to suit your company profile.

## Features

Rapid Induct is the most sophisticated software in its class with a wide range of unrivalled product features and benefits:

- Fully customisable with your own company logo, course content and media.

- Produces a certificate for each learner including declaration, pass score, checklist and questions.
- Is able to include plastic data enabled ID cards with a QR code.
- Offers 1800 number phone support for learners and administrators.
- Includes ongoing training and technical support for administrators.

## What Makes Rapid Induct Different?

Rapid Induct is the most advanced induction and training software on the market. It's fully editable and offers a superior level of course self management because we know our clients appreciate the ability to easily edit and control their content. Clients also appreciate the ability for the system to provide different access according to the job role or security level.

Rapid Induct provides more than just online course delivery. It also allows for collection of documents (such as licenses and certificates) from learners and provides your organisation with the ability to ensure resources, such as site maps and safety documents, are consistently accessible by users. Safety documents are accessible by the worker 24/7 by simply logging in with their password.
